Meeting Summary:

The meeting was held remotely using Zoom.

There was much discussion of chapters 3 & 4 of the updated Comprehensive Plan. A section on “Village finances” will be included. There is also a need to be sure that the Vision Statement is aligned with Chapter 3 - the vision statement needs to mention “health, safety, and welfare.” We also need to mention the impact of COVID-19 on the village and future planning. Other minor but substantive details are referred to the editorial subcommittee.

We reviewed a first iteration of data visualizations derived from the responses to the in-depth survey. These will appear as an Appendix to the Plan.

Second Public Information Meeting - since we will not be able to have an in-person meeting, we'll need to figure out how to do this remotely. Discussion will continue.

Next meeting will be devoted to reviewing Chapter 4 of the Plan (Summary of Goals, Strategies, Actions and Implementation)

Respectfully submitted,
Katharina Klemperer
