Zoning and Building Department TOWN OF HOPEWELL

2716 County Road #47 Canandaigua, New York 14424

585-394-3850 ext. 4

Permit Application for Decks & Porches

This Application must be filled out completely and submitted to the building department.

The permit will be issued when all review notes are addressed, insurances are on file, and permit fees are paid

Application Checklist

Incomplete applications will not be accepted

PLEASE DOUBLE CHECK EMAIL ADDRESSES.

The Applicant Shall, as part of this application, agree to:

 Notify the Building Department of any change in the information contained in the application or approved plans and specifications.

• Prominently display on the premises the building permit issued and authorize the inspector access for the

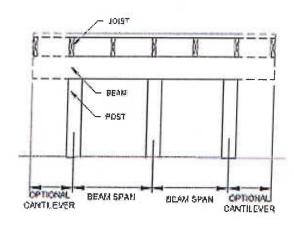

purpose of inspections during construction.

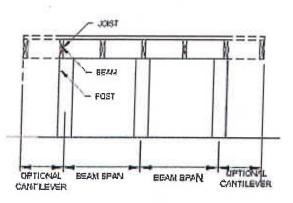

- Not use any portion of the project, in whole or in part, until the structure meets all applicable codes, conditions, all inspections have been made, approvals granted and a certificate of compliance has been issued.
- Abide by Planning Board, Zoning Board of Appeals, Town Board approval resolutions, if required, and all plan amendments made by the Building Department.
- At the time of the issuance of a permit, a copy of approved plans will be kept at the work site, available for inspection throughout the progress of the work.
- Work may NOT Commence prior to the issuance of a building permit.
- Must Notify the Building Department 24 hours in advance for all required inspections and must receive approval before any building element, equipment, or system is covered or enclosed.

Acceptance does not relieve the agent, applicant, architect, builder, engineer, or owner from complying with any of the provisions of the NYS Building Code, Energy Code, SEQR Act, Local Zoning, etc., whether stated, implied, or omitted in the plans and specifications submitted for the building permit. Incorrect information may result in revocation of permit.

For SI: 1 inch = 25.4 mm, 1 fout = 304.8 mm, 1 pound per square foot = 0.0479 kPa, 1 pound = 0.454 kg.

a. Ground snow load, live load = 40 psf, dead load = 10 psf, $L/\Delta = 360$ at main span, $L/\Delta = 180$ at cantilever with a 220-pound point load applied at the end.

b. Beams supporting deck joists from one side only.

c. No. 2 grade, wet service factor.

- d. Hearn depth shall be greater than or equal to depth of joists with a flush beam condition.

- e. Includes incising factor.

 E. Northern species. Incising factor not included.
- g. Beam cantilevers are limited to the adjacent beam's span divided by 4.
